MESSAGE

I felt really overwhelmed to learn that through the kind cooperation of His Excellency, Sh. Swasphawan Singh, Indian Ambassador in Kuwait and through the good efforts of the Kuwaiti gentleman, who as a curator, has taken great pains in collecting my water colour landscapes of Kashmir from different parts of the world, and exhibition of my paintings is being organized in Kuwait, as part of the cultural fest celebrations. It is all the more great that such an exposition of genuine and realistic art is being organized to promote this type of art, at time, when it is fashionable to talk about modern artists only, and the people are made to believe that modern art is the more sophisticated form of art, which is beyond the comprehension of a common man.

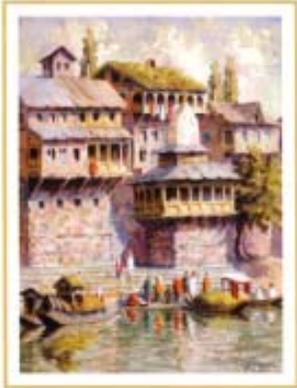

I wish the exhibition a grand success and find no words to express my gratitude to the Indian Embassy in Kuwait and to this great curator, who have jointly made an effort to make this even happen, doing me a great favour in the process.

Dated: 25th March 2004
